

MEET THE Teacher

Ms. McKnight

ALL ABOUT ME

I am a 6th grade science teacher at DDMMS and a staunch Duke fan!. I have been teaching middle school math and science for 15 years. I also worked as a chemical engineer, a human resources manager, and owned my own natural therapeutics practice. I have an MBA from Rivier College, a BS in Chemical Engineering from Northeastern University, and a certification in Natural Therapeutics from the New Mexico School of Natural Therapeutics. I am looking forward to meeting my new students and to an exciting 2020-2021 school year!
